Name: Ishan Malhotra

Position: International Student Representative

Profile Statement

Hi, my name is Ishan Malhotra and I am an international Student from India. I am pursuing a diploma in Computer Studies at Langara College. I am an enthusiastic individual who is always ready to accept new challenges. As a person, I am very patient which helps me in taking right decisions at right time. On the other hand, I am very socialized person who always wants to talk to new people and explore more.

Platform Statement

I am running for the position of the International Students' Representative. Previously, I have served as a PEER TUTOR in Langara College and now I am taking this opportunity to run for student council at the Langara Students' Union. Serving as a LSU board member will further give me the opportunity to help students in many different ways. As an international Student representative, I will spread awareness among students about various LSU plans. Talking about LSU's Health and Dental Plan, majority of the students are unaware of it. So, my first goal is to educate international students regarding the services and benefits they can take advantage of on campus.

On the other hand, many students use public transportation and LSU is providing them this service on very affordable price. If elected, I will ensure this service stays. Moving further, I plan on running campaigns to fight for the rights of international students. Please take a stand and vote for me as the face of the international students on campus. Vote, Ishan Malhotra for International Students' Representative. Thank you.
