
Platform & Profile

Name: Eknor Singh Sekhon

Position: General representative

Profile statement:

I am currently enrolled in a program in computer science. I actively participate in volunteering in and outside LSU since I am enrolled. I actively participate in the college activities. I connect with everyone easily and enthusiastically. So, people commute with me easily w/o hesitation. And I believe in encouraging people.

Platform statement:

I am seeking a general representative position as I understand student interest, and this made me possible to gain an insight into the student's experience in the campus. I conducted a small survey in which I observed most commonly was less awareness of the campus facilities like sports, medical, free workshops and counselling that can be utilized in a great way. One person is nothing but we all can change anything in a better way. I would like to add thanksgiving to our Langara events as most people don't go back to their home country for a long time so small thanksgiving can make them feel at home and see themselves as a part of Langara. The LSU works through the money that is collected from the fees. As everyone pays, so we need to have something for everyone. And at last, I promise to act with courtesy and respect towards all students and will do my best to make the campus a more meaningful place for everyone.
