

Name: **Yuvraj Anttal**

Position: **Vice President Student Life**

### **Profile Statement**

Hi, I'm Yuvraj Anttal, a Langara student running for Vice President Student Life. I previously served as a General Student Representative with the Langara Students' Union. My academic, student leadership, healthcare, and public-service experience has strengthened my skills in communication, teamwork, organization, and accountability. I want to help create a campus where students feel included, informed, supported, and comfortable sharing their concerns.

### **Platform Statement**

My name is Yuvraj Anttal, and I am running for Vice President Student Life. I want to help make Langara a place where every student feels supported, included, and connected. My priorities are student engagement, accountability and transparency, accessibility and inclusion, and student well-being. If elected, I would support practical events, clubs, and activities that help students connect while considering the needs of commuters, working students, international and domestic students, and those who may not already feel involved on campus. I would also focus on clearer communication about LSU services, resources, decisions, and opportunities. Accountability means providing regular updates, creating simple ways for students to give feedback, and following through on commitments. Student feedback should help guide programming and priorities. I would work collaboratively with students, clubs, representatives, and campus services to make student life more welcoming, accessible, and responsive.
